Summary

Enthusiastic and driven second-year B.Tech Computer Science and Engineering student with a strong foundation in programming languages such as C, Java. Possessing knowledge in databases , data structures and web development technologies .I actively participate in extracurricular activities including hackathons and coding competitions.

Programming languages:

1. C
2. Java
3. MySQL
4. Data Structures and Algorithms
5. Academic & Professional Development Pursuing B.Tech in Computer Science (Batch of 2022-2026) from K.L. University, Hyderabad.

Training Programs Attended:

AWS AI-ML VIRTUAL INTERNSHIP
Duration: Jul 2024 – Sep 2024
- Completed a 10-week virtual internship under the **National Educational Alliance for Technology (AICTE)**.
- Gained expertise in AI-ML.

• Successfully completed "AWS Academy Graduate – AWS Academy Cloud Foundations" course conducted by AWS Academy.

• I am redhat certified.

• Intern at Smart Village Revolution(2023)
During my participation in the Smart Village Revolution internship, I played a pivotal role in identifying a critical health concern prevalent in rural areas, the detection of low fluoride content in drinking water. I initiated discussions within out multidisciplinary team to explore potential solution.

PROJECTS

- **Fashion Foresight:** Deep Learning Fashion Recommendation System
  Technologies: CNN.
  • Developed a fashion recommendation system using CNNs for personalized recommendations based on clothing datasets.
  • Integrated skin tone analysis and body type classification for improved accuracy.
- **Smart KeyChain :** Smart Key Chain system to enhance key management and prevent the loss or misplacement of keys.

Education

⚙ KL University

Bachelor of Technology, Computer Science
2022 – 2026

CGPA – 9.63

🔵 Sri Chaitanya techno School, Hyderabad-ECIL

2019 - 2020
GPA:100%

🔵 Sri Chaitanya junior kalasala, Madhapur.

MPC
2020 - 2022
GPA:97.0%

ACHIEVEMENTS

- IMPACTECH 2K23 HACKATHON

GLOBAL CERTIFICATE
Red Hat Certified Engineer (RHCE)

- **Issuing Organization:** Red Hat
- **Date Obtained:** June 2024
- **Description:** Achieved advanced skills in system administration for Red Hat Enterprise Linux systems, including automation, task execution, and troubleshooting.

Certified Advanced Automation Professional (RPA)

- **Issuing Organization:** Automation Anywhere
- **Date Obtained:** September, 2024
- **Description:** This certification validates advanced skills in robotic process automation (RPA), demonstrating the ability to design, develop, and implement intelligent automation solutions using Automation Anywhere's platform. It covers topics such as bot creation, process optimization, and advanced analytics, equipping professionals to drive efficiency and innovation within their organizations through automation.
